

ALJIBES

LAVENDER HONEY 100% NATURAL

Our lavender honey is produced by bees naturally, on our farms in the province of Albacete.

Honey made in a traditional way, so it contains only natural sugars.

It stands out for its amber color, with shades that can cover darker tones. Its aroma is of great intensity, concentrated and persistent, typical of lavender flowers, which gives a unique touch to its flavor.

Ingredients: 100% raw honey.

Origin: Spain.

Capacity: 500 ml.
